

Jay Bhatt [MERN Stack Developer]

📍 Banswara, India 📞 8769297221 ✉ bhattjay114@gmail.com 🌐 <https://jayuio.vercel.app/>

PROFILE

I am a **MERN Stack Developer** with a strong foundation in **React.js, Node.js, Express.js, and MongoDB**, specializing in building scalable, high-performance web applications. With a passion for creating dynamic **UI/UX experiences and efficient backend systems**, I strive to develop solutions that enhance user engagement and business growth.

EDUCATION

11/2022 – 11/2024 JODHPUR, INDIA

Web Technologies | Master of Computer Applications - MCA
Mugneeram Bangur Memorial University

05/2019 – 08/2022 BANSWARA, INDIA

Computer Science | Bachelor of Computer Applications
Govind Guru Tribal University

SKILLS

– COMPUTER SKILLS

React.js, Node.js,
Express.js, MongoDB, Git
& GitHub
HTML5, CSS3,
JavaScript(ES6),
Bootstrap, SQL,
TailwindCSS

WORK EXPERIENCE

08/2024 – 11/2024 GURGAON, INDIA

MERN Stack Intern
Unified Mentor Private Limited

- Acquired practical expertise in **MERN stack development**, implementing **user authentication, access management, and secure authorization using JWT**.
- Developed skills in **API integration**, optimizing **backend performance** with **Node.js, Express, and MongoDB**.
- Enhanced **React UI development**, focusing on **state management, dynamic rendering, and responsive design, asynchronous programming, API optimization, and data fetching strategies**.
- Improved problem-solving skills by debugging, optimizing queries, and ensuring application scalability.

WORK EXPERIENCE

- Collaborated effectively in a **team environment**, participating in **code reviews, agile discussions** to improve project efficiency.

Projects & Learnings:

Studyslot.io - Appointment Booking App :-

- Built a role-based platform (Student, Teacher, Owner) with JWT authentication and secured routing.
- Learned role-based access control (RBAC), secure API development, and authentication best practices.
- Gained expertise in React UI optimization and backend security implementation with Node.js & Express.

FitHub – Gym & Fitness Platform :-

- Developed trainer-user role access, e-commerce features, and a payment system for gym supplements.
- Enhanced skills in API integration (ExerciseDB), secure payment gateways, and MongoDB schema design.
- Improved knowledge of state management in React and building scalable MERN applications.

CineMorph – Movie Discussion & OTT Platform:-

- Developed a dynamic movie details page with discussion features.
- Gained experience in React state management, MongoDB data structuring, API data handling, interactive UI design and media content handling.

Weather.io – Real-time Weather App :-

- Built a location-based weather forecast app using OpenWeather API.
- Learned fetching real-time API data, handling asynchronous requests, and optimizing API calls.
- Gained experience in responsive UI design and data visualization techniques.

QuizKaro – Interactive Quiz App :-

- Created a quiz platform with real-time scoring and category-based questions.
- Strengthened skills in dynamic component rendering, React state management, and user engagement strategies.
- Explored performance tracking systems and conditional UI rendering for an interactive experience.
